Egle, cashier of the New Lenox State bank, who is one of the members. Not available for the picture were two other members, Police Magistrate Ronald M. Whitaker and Mrs. Betty Dunn. All are members of the New Lenox Association of Commerce which is sponsoring the decoration program. The decorations are to be placed on the utility poles.

AIRMAN BASIC David F. Griffin, son of Mr. and Mrs. Harry F. Griffin of 736 S. Cedar, New Lenox, Ill., is being reassigned to Keesler AFB, Miss., for technical training as a radio and radar maintenance specialist.

Airman Griffin was selected for the specialized course on the basis of his interests and aptitudes.

Mokena F.D. Sells \$3,000 Of Tax Warrants

The Mokena fire protection district, which was formed last summer has issued tax anticipation warrants in the amount of \$3,000 in order to meet expenses of the district until taxes are available next June. The warrants were sold to the Mokena State Bank and carry 5% interest. Private individuals refused the same opportunity. Directors of the district, who were appointed by the county court are Harold J. Cooper, president; Roy Kohl, treasurer and Raymond Bernard, secretary. They meet the first Thursday of each month.

Palos Center Preserves Old Christmas Customs

The hanging of the greens and the lighting of the yule log will again highlight the Advent season program planned by the Community Center Foundation, 127th and Southwest Highway, Palos Park. The Foundation was started more than 30 years ago in the Palos hills to serve as "A house by the side of the road and a friend to all mankind," and its Christmas events are open to all. The hanging of the greens will be observed at 7 p.m. Sunday, Dec. 16. This is an ancient custom, with the cleaning of the house and decorations symbolizing the preparation for the coming of the Christmas child.

TB Seal Sales In County Shade Better Than 1962

A total of \$16,818.31 has been received to date in the Christmas Seal campaign according to figures released today by John H. French, Christmas Seal campaign chairman for Will County. To the same date last year, funds received totaled \$16,402.09. "We are very pleased with the response by the residents of Will County to our Christmas Seal campaign," commented Mr. French. "However, when we realize that every seven minutes someone in this country breaks down with tuberculosis and once every fifty minutes someone dies of it, we know we must do all we can to help prevent this disease from spreading," he added. "Everyone can have a part in the fight against tuberculosis by contributing to the Christmas Seal campaign. The

NI-Gas Is Ready To Aid In Attracting Industry

Barton Juell, formerly district manager of NI-Gas Co. and now head of the company's land planning and development division, with Jack Strickland also of that department, were the speakers at the recent dinner meeting of the Mokena Chamber of Commerce, which was held in Doc's restaurant. They explained various ways in which they can help in bringing industry to the area. "You are very fortunate," Mr. Juell told the chamber members, "that your community has a master plan and you are also fortunate in having land here located where it should be attractive to industry."

Both men see bright futures for the area but pointed out that a lot of hard and serious work must be done if the region is to realize on its great potential. In business that came before the chamber it was announced that the street decorations for the holidays are being furnished by the C. of C. illuminated

Arbury School Contract Goes To Frankfort Firm

Bids on the addition to Arbury Hills school were much better than was anticipated by the architects and the contract has been awarded to Baumgartner & Co., of Frankfort, whose figure was approximately \$10,000 below the estimate.

The estimate was a little

Santa faces and candy canes are going up on the light poles along Front Street between Wolf road and division street. A large Nativity scene is to be erected near the village Christmas tree on the Rock Island parking lot.

The Chamber of Commerce proceeds from Fiesta Days last summer will be used in part to pay for a new printing of the Mokena Phone directory. Refuse containers are to be placed along Front street as an aid to the anti-litter campaign now in progress.

A large sign is to be erected in the village carrying the names of all the paid-up members of the Chamber. Also called for is the renovation of the three C. of C. signs at the entrances of Mokena.

A nominating committee including Dan Kurber, John Langland and George Helgeson was appointed to present a slate of officers for the coming year at the December meeting.

over \$101,000. Baumgartner's bid -- including several alternates -- was \$91,030. The firm's base bid was \$88,138, which was without the alternates.

Baumgartner & Co. moved some fencing and equipment to the site last week-end and has the job underway.

The Summit Hill District board of education -- Arbury Hills school is in the Summit Hill district -- was well pleased with the figure on the successful bid. In fact the board was pleased with all the bids. There were 11 firms that submitted figures and the highest was just about what the architects believed the building would cost.

The second lowest bid was that of Modern Builders, \$93,022, and the Robert G. Regan Co. was third with a figure of \$93,360.

School Superintendent H. James Wrath was gratified with the figures. The bond issue recently approved by the voters of the Summit Hill district was for \$115,000. With the cost set at \$91,030 there will be money available now to take care of the grounds. There are the architect's fees, of course, the legal fees and the cost of the bond issue, plus the cost of furnishing the new addition. There will be sufficient funds to meet all these and also fix the grounds. There is a lot of mud around the school in wet weather now and this condition can be remedied.

The addition will include four classrooms, a multi-purpose room, washrooms, storage space and a kitchen. If December's weather holds as predicted -- with above normal temperatures -- the contractor will be able to gain considerable time, it was pointed out. Supt. Wrath believes progress will be such that the new rooms will be ready by next September.

Baumgartner & Co. had the contract for the addition to Frankfort's grade school which was formally dedicated recently. The addition was ready for use, however, when school opened last September.

The fencing at the Arbury school is necessary to keep children away from the construction site.

Installs Guard Dogs To Combat Car Strippers

Thieves that return to the storage yard of the Cooper-Show Ford agency at Frankfort from now on will not be alone. In the yard with them will be two trained guard dogs, doberman pinschers.

Persons pinned down by such dogs are advised not to make any movements because they could bleed to death before they are found, according to those experienced in the use of such animals.

The decision to use dogs to guard the storage yard was made last week, according to Ralph Show, one of the owners. The firm has lost parts valued at several thousand dollars for the past several

months.

The thieves apparently are organized and arrive equipped with tools and ample transport facilities and carry off anything that can be removed. Only the later models cars are touched, from 1956 to present date, Show said.

The thieves take batteries, radios, wheels, tires, radiators, engine parts and even a transmission was taken out of a pick-up truck that was parked in the front row of the used car lot along White street. A heavy fog blanketed the town the night the transmission was taken, it was reported.

Some of the cars stripped

had been in accidents and were towed in for repairs. Some of those stripped had been brought in for routine repair and stored in the yard when the garage became filled. And some of the cars molested were new ones that were held in the yard until they could be washed, shined and serviced for delivery.

In one week 40 batteries and radiators were stolen. Even spark plugs are taken.

Last week a German compact in for repairs was almost dismantled, it was reported. The engine had been loosened from the mount and was ready to be lifted out. The tires were carried off, as was the battery and a special clock valued at

\$50, plus distributor and other parts. But apparently the thieves took alarm and fled before they could lift the engine out.

Investigators say the gang apparently is well organized and equipped with know-how as well as tools. They must work quite rapidly, it was said, when one considers what is done in what must be a very short time and with very little light.

The storage yard is fenced in but a taller fence has been added to make entry less easy. The taller fence will also make it more difficult for the thieves to get out, which will be a problem for them to consider, it

was said. Because now those who enter the yard after hours now have two trained dogs to cope with. These dogs are difficult to see at night; they move terrifically fast and work quite silently. A man can be knocked down and find teeth closing on his throat before he knows a dog is there. Whether his throat is torn open depends on the thief's actions.

These dogs, it was explained, are taught to attack vital areas, the throat or spots where principal arteries are severed but that is done only if the prisoner attempts to escape or attacks the dog, it was explained.

BROTHER EDMUND

Providence Principal To Address N. Lenox A. of C.

Brother Edmund, a member of the Christian Brothers and principal of Providence high school on U. S. 30 west of New Lenox, will be the speaker at the regular meeting of the New Lenox Association of Commerce scheduled for next Tuesday noon, Dec. 11. The meeting will be held in Bruns restaurant. Luncheon will be served at 12 sharp.

Brother Edmund will outline the aims and the work that is being done in the new Catholic high school that opened its doors in September. He received his bachelor of science degree at St. Mary's college and his master's in education from DePaul university.

At the previous meeting of the

Association, which was held Nov. 27 the speaker was James Pate, of the public relations department of the Rock Island railroad. Also a guest was Max Greenley, treasurer and a director of the railroad.

Mr. Pate discussed the costs of railroading and said that the roads aimed to provide as good passenger service, for commuters as well as those traveling longer distances, as was possible.

It is no secret that railroads have been facing rising costs and shrinking revenues all over the country, yet they are looked upon as indispensable in moving large numbers of commuters.

Mothers Plan Aid For Library

The Room Mothers of the New Lenox PTA do not serve luncheons in December but this year is an exception. They will serve lunches -- the public is invited -- at both schools, Haven and Oakview, next Thursday noon.

The proceeds will be applied on the library project at Oakview school. To be known as the John Oster library after the former superintendent of schools in New Lenox, it will provide teachers and students with necessary reference books.

The room mothers decided it was worth while to take time out of their holiday preparations to aid the library and so the lunches are set for next Thursday.

Dale Holden, 36, who has a father, a brother and a sister living in Negekoosa, Wis.

Holden's wife is dead and they had no children, the coroner was informed. His relatives didn't know where he was living other than in the Chicago area.

According to papers in his pockets Holden was a worker in the metal trades -- a die caster.

He was angling across Route 30 and is believed to have walked into the rear of a passing semi-trailer driven by Dolph Waddell, of Crete. Waddell told police that he saw a man walking across the road. When he had passed, Waddell said, he saw the man's figure in his rear view mirror. The man appeared to be bent over, the driver said, and they disappeared. Waddell stopped and found the man prostrate. The truck driver called for help and notified police. Holden was taken to Sivaler Cross hospital where he died about three and a half hours later.

GOOD ST. NICHOLAS is a versatile traveler these days and one scarcely knows whether to look for him in a sleigh or a space capsule. In this picture he is making use of the helicopter to arrive at Braun Sales, New Lenox. There was quite a crowd to greet him.

Arbury Hills
Teen Club Plans Hayrack Ride On Night Of Dec. 15
MRS. EDWARD HOVI
Mokena 5740
The Arbury Hills Teen Club met on Nov. 26 at the school. There was a discussion from the committees; money making, money spending and rules committees.
The rules committee has set up nine rules that must be kept by all members.
The Teens club has decided to go on a hayrack ride on Dec. 15. All members who are going to attend this affair, must bring 50 cents to the next meeting on Dec. 10. If a member is going to bring a guest to the hayrack ride, he must bring \$2 to the next meeting.
A minimum of 20 persons are needed to attend, it was explained.
Transportation and chaperones are needed. Someone who can either drive or chaperone is asked to call Lynn Fitch at Mokena 5646. More details will be given at the meeting on Dec. 10.
The chaperones scheduled for the Dec. 10 meeting are Mr. French and Mrs. Lee Ann Blecha. There is no meeting scheduled for the fourth Monday in December, since this date falls on Christmas Eve.

The Summit Hill Boy Scout Troop Number 10 held their camp-out under the supervision of Scoutmaster Dan Markowsky. The camp-out took place immediately following Thanksgiving starting Friday evening and concluding on Sunday.
There was a flag capturing match with the other boy scout troop present at the camp, which left the boys, and incidentally the scoutmasters too,

pleasantly tired on their return home.

This was followed by a week-end visit by Mrs. Diercouff's sister and brother-in-law, Mr. and Mrs. Gerald Lind, and their five children, Linda, John, Roy, Richard and David.
Mr. and Mrs. Hall acted as proxy godparents for four month old Brian's baptism on Sunday, Nov. 25, at 4:00 p.m. at the St. Peter's United Church of Christ in Frankfort. The Hall's came up from their home in Gilman, Ill. for the occasion.

New Lenox

Crossing Guard Service Halts; Lack Volunteers

DOLORES ANDERSON
HU 5-3651

The adult crossing guards sponsored by the safety committee of the New Lenox Parent Teachers Association will discontinue their service at Haven school after tomorrow, Dec. 7.

This detail has been very effective in regulating traffic and providing a safe crossing for children, but due to lack of an adequate number of volunteers, the service will be discontinued, it was explained.

The safety committee wishes to request of parents to follow the vehicle pattern established. This involves picking up and discharging children on the east side of Cedar between Haven and First ave. This pattern has been effective in providing measures of safety for the children, it was said.

The safety committee will continue its activities and will now concentrate on the safety education program in which safety films will be provided each month in the schools. Also, an effort will be made to promote sidewalks in the more hazardous areas.

The Woman's Guild of Grace Episcopal church, will hold its annual Christmas party in the church basement on Thursday, Dec. 13 at 8 p.m. Mrs. Edward Morris will be hostess and Mrs. Sam Carr will assist with the games. More Talk Than Action On School District Changes

There is a lot of talk of mergers and detachment among the school districts of the area but as of this date the only thing certain--if anything other than death or taxes can be certain--is that on next Tuesday night the Will county board of school trustees is scheduled to hear a petition to detach a portion of the Weitendorf district and attach it to the Mokena grade school district. The other talk concerning schools includes-----

1-That Schmuhl school district No. 121 is to merge with the New Lenox grade school district, No. 122.

2-That Schmuhl school district will not merge with any district but will continue to operate on an independent basis as it is now.

3-That Schmuhl school, Reiter School and Weitendorf school are about to merge and form a new district.

4-That a group in New Lenox would have that grade school district detach from Lincoln-Way high school district and attach to Joliet township high school district so pupils can take advantage of the opportunity of attending the new Joliet east side high school on Mills road near Manningdale.

A check with County School Superintendent Verne Crackel shows that the only petition concerning change in school district boundaries is the one filed by residents in a mile area just south of the Mokena school district. They want out of Weitendorf district and into the Mokena district, altho it will cost them more in taxes.

If there are any moves along any of the rumored lines enumerated in the four numbered paragraphs none of them have

Donald Ross attended as the best man along with Harvey Hollenbeck and Richard Ross.

Mrs. Smego chose a white brocade sheath with black patent accessories and a corsage of white cymbidium orchids for her daughter's wedding.

Mrs. Tighe chose a beige and gold sheath accented by brown accessories and brown cymbidium orchids.

A reception was held following the ceremony.

The newlyweds honeymooned at Holiday Lodge in Chicago and are now residing at Maryknoll Drive, Lockport.

Mr. Tighe is employed at Electro-Motive in LaGrange while Mrs. Tighe teaches at Homer community consolidated school.

taken form as yet.

To detach from a district, or for an entire district to join with another district, a petition must be filed with the board of county school trustees signed by at least two-thirds of the legal voters of the district in which the action is taken.

In the case of the portion of the Weitendorf district that would be annexed to the Mokena district the petition had to be signed by two-thirds of the legal voters of the territory to be detached. Proving that a petition is signed by two-thirds of the legal voters of a district or portion of district can be difficult unless a census is taken of the territory involved just prior to circulation of petitions, it was pointed out.

Variety Of Problems Faces Frankfort Board

Christmas candy for school children, a location for a new fire station, a landingfield, garbage cans, salary raises, sewer and water accounts and codes covering building plumbing and electrical work all came in for action or discussion at the regular meeting of the Frankfort village board Monday night.

The annual gift of the village board to the school children of Frankfort in the form of candy at Christmas time is a custom started by Major George Sangmeister 32 years ago and he hopes it will continue. The board Monday authorized Village Clerk Walter Pfaff to order the candy, a bag for every grade school child.

The landing field question was brought before the board by Frank Fleck a farmer living south of Frankfort along Center road. He is protesting use of some 23 acres of the John Ludwig farm as a landing field for light planes. The state aeronautics board has approved the request of John Arnold, of Orland Park, who has acquired the tract in question, as an airport. The county zoning board is now being asked to zone the land for airport use. Members of the village board told Fleck they sympathized with him but the tract lay outside their jurisdiction.

A village board was a master plan can enforce the terms of its subdivision ordinances on land up to a mile and a half outside of the village limits but cannot control land use, the Frankfort council was advised by Village Attorney Albert H. Krusemark.

The board took no action on the airport case.

Mayor Sangmeister said he had been approached on the lease or purchase of a piece of the village park for a fire station site. The board members all agreed that park land was not available for such purpose. It was reported at the

meeting by Trustee Clyde Reils that the firemen had several sites to consider.

Complaints were made to the board that some persons neglected to take in their garbage cans but left them standing by the curb lines permanently. Police will give such offenders warning and thereafter they will be charged with maintaining a public nuisance and brought into court, the board decided.

Police Chief Francis Simon and Victor Eisenbrandt, who is employed in the water and sewer department, were each given salary increases of \$30 a month a raise of \$15 was given Village Clerk Pfaff.

Village Attorney Krusemark was instructed to bring in drafts of ordinances embracing standard building, plumbing and electrical code provisions for study at the next meeting of the board. No other business will be considered at that meeting, Dec. 17.

Village Clerk Pfaff reported what may be a record for collections. There are some bills due the village for sewer and water at houses, now vacant which are up for sale, but the only money lost by the village between May 2, 1960 when the present system went into operation, and Dec. 1, 1962 on sewer and water bills is \$7.91. That covers two accounts where the people moved out in the middle of the night. There are 436 accounts.

More Questions And Answers On Building Program At L-W

More questions and answers pertaining to the proposed expansion of Lincoln-Way high school thru the building of an addition.

A \$750,000 bond issue to defray cost of such addition is to be voted on Dec. 15.

So far the Parents Teachers Group reports having the signatures of some 1,900 persons

who express themselves as for such an addition.

How do you answer the school critics who say our schools are adequate?

"In this forthcoming election, the proposition deals only with the inadequacy of the building. The question is one of keeping pace with the student population."

If the critics believe the curricula of the past is adequate, along with the teaching techniques and equipment, then they are not facing the "challenge of change." Schools and education have experienced the same tremendous changes as noted in science, medicine and in all parts of our civilization. Mr. Conant, in his study

Under this voluntary wheat reduction program, farmers may divert from 20 to 50 percent of their wheat allotment or base acreage.

Dec. 14 Last Day To Sign Up Under Wheat Program

Dec. 14 is the last day for signing up under the 1963 wheat stabilization program, Mr. Roy Smith, chairman Will county agricultural stabilization and conservation committee, has announced.

"This means that only two weeks remain in which growers may file applications to take part in the 1963 winter wheat stabilization program," the chairman said.

of the American high school, found many more poor schools than good ones.

"The question for the L-W community to decide is whether they want one of the best high schools or whether a mediocre one will be satisfactory. It is always difficult to maintain high standards and a quality program, yet all parents along with the community want a school second to none."

What percentage of L-W graduates go to college? "Approximately 35% enroll in schools of higher learning. The college dropout rate is rather high due to marriage, finances, military obligation, grades, etc. This does place a great responsibility upon the non-college training and courses of study."

What percentage of L-W graduates go to local industries? "What is meant by the term local? As we know the L-W community is primarily a commuting area. Little information is presently available regarding the actual L-W alumni residing and working within the district. The first complete class didn't graduate until 1958. Many from these early classes went to college or the military and haven't completed their final plans for the future."

"The L-W board of education and various citizen committees hope to assist and encourage more industry to locate in this strategic area."

Have studies been made to determine the demand for L-W graduates?

"Follow-up studies and contacts have been made with employers for their opinions and suggestions relative to the competence of the L-W students. In most instances these reports have been encouraging

and helpful. In fact, up to the present time employers have shown considerable interest in the L-W graduates."

How is the L-W graduate different from others? "The L-W staff strongly believes their students have no superiors and few equals. A school should always be judged by the graduate."

"In addition to being qualified for college or the adult world, the typical student and graduate has been taught proper conduct, manners, courteous behavior, taught to assume responsibility and how to assume positions of leadership. The L-W graduate has received the necessary instructions regarding discipline and proper conduct. He can easily make the adjustment either in our Armed Forces or in his adult career."

Are L-W students fitted for college?

"Every student in any high school would not be qualified to pursue the regular college academic program. Students in the lowest one-third of their graduating class are finding it difficult to enroll in most colleges."

"L-W students are making excellent records with many admitted to college honors courses."

"The L-W faculty is seriously considering an Advanced Placement Program for the more talented seniors. These courses will give the seniors regular college credit."

Where can we get an author-

itative opinion on our academic program?

"Last year a local curriculum committee made an excellent beginning in studying the educational program. This study should be a continuous one. The North Central Association of Colleges and Secondary Schools and the state office of public instruction evaluate the school each year. These reports are available for public study."

Delight her

with a new Gas appliance for Christmas

A work-saving, time-saving modern gas appliance will make her life a lot easier all year long

Make her cooking simpler and more enjoyable than ever with a modern, automatic gas range. "Controlled cooking" ends oven-watching; cooks food perfectly, then keeps it warm and ready to serve for hours—automatically. Automatic top burners end pot-watching; make any cooking vessel an automatic appliance.

Save her the chore of washing dishes. An automatic Preway dishwasher has a fast gas-fired water heater built right in to heat wash-cycle water to 160°. Then it super-heats rinse water to 180°. Hottest water of all, plus unique water dispersal action, means cleanest dishes of all—hygienically clean.

Let her dry clothes the convenient modern way: indoors, with an automatic gas clothes dryer. She'll like the way clothes come out so soft and fluffy—and the saving in ironing time. A modern gas dryer operates for one-fifth the cost of other types of dryers.

See the many other wonderful gift items like the new gas refrigerators that never need defrosting... the new portable gas grills for easier barbecuing... and the wide selection of charming and practical gas yardlights. See them at your nearby Northern Illinois Gas Company showroom. Low down payments and convenient budget terms make it easy for you to play Santa Claus.

Service around the clock

Free cook booklet with gay holiday recipes is yours for the asking at all Northern Illinois Gas showrooms. Just call, or stop in.

Book Club Members Plan Exchange Of Paperbacks

LOIS CARLISLE
Mokena 5253

The December meeting of the Mokena Book Club will feature a Grab-a-Book gift exchange by members. Volumes to be exchanged will all be paperback editions of a favorite book of the giver. All books will be gift wrapped and placed in Santa's sack for "grabbing" by the members.

The meeting will be held on Friday evening, Dec. 14 at the home of Mrs. Clarence Miller, Woodland Circle. A special invitation is being issued to all associate members as well as regular members to attend and bring a gift book.

The program for the evening will be presented by Mrs. William Welsch. She will review "Travels with Charlie" a light-hearted tale by John Steinbeck of his journey with a poodle dog.

Mokena Lion club members will take their wives out to dinner tonight. Their semi-

annual "Ladies Night" will be held at the Mokena Methodist Church at 7:00 p.m. Seventeen school children from the Carpenter Street school under the direction of Mrs. Jean Clark will sing several Christmas songs. Major George Rumbley, program chairman will show a short Christmas film entitled "Candle Maker".

The Lions would like to express their gratitude for support of their fruit cake sale conducted recently.

A Christmas songfest will be held Sunday evening, Dec. 9 at the Mokena Methodist church sponsored by the Adult Sunday school class. A buffet supper is planned at 6:15 o'clock. Everyone is asked to bring sandwiches, salad, dessert and silver service for their own family. An hour of music will begin at 7:30. There will be community singing plus special Christmas numbers by the junior and senior choirs. Mrs. Willard Barenz and Mrs. Wesley Sievert will entertain

with a piano and organ duet. Everyone is invited. This sing-spiration under the direction of the adult class teacher, Harold Lotz, was enjoyed so much last year that the adult class was asked to repeat it.

Librarians for Wednesday evening, Dec. 12 will be Mrs. Norman Falet and Mrs. Gordon Holleman.

Hints For Homeowners

BY JAMES FIZZELL
ASSOC. FARM ADVISER

Green plants have become popular for home growth because they are attractive and can survive or even grow under adverse conditions. But even the most sturdy green plant will usually benefit from proper care. Well grown plants are more attractive and will last longer than those receiving less care, and they may even produce an unusual flower. If your green plants flower, you can be sure that you have done a good job of caring for them.

SOIL. Foliage plants, like all others, need good soil. An all-purpose potting soil consists of 1/3 garden soil, 1/3 clean sand, and 1/3 peat moss, leafmold, or compost. This mixture has properties that allow water to drain properly and air to move freely around the roots of the plant and yet retain sufficient water for plant growth. Cactus and other fleshy leaved or succulent plants need a lighter mixture - more sand.

WATER. Probably more green plants are killed by too much water than by any other one thing. Too often plants are put into containers that

have no provision for drainage. Planters are good examples. When water is added to soil in a planter, the plants use only part of the water; the rest collects in the bottom of the container. Eventually the soil becomes water-soaked, the roots begin to rot, and the plants die.

Use containers that have drain holes. If you use glazed containers or planters, put a metal liner with holes in it inside the container. Put the plant into the liner. You can then pour off excess water.

If it is not possible to use a liner, try setting the plants in small pots in the container or put a one to two-inch layer of coarse gravel in the bottom of the container. The gravel will hold the excess water for some time and thus help to lengthen the life of your plants.

Water properly drained plants only when the soil becomes fairly dry. Apply enough water to thoroughly wet the entire soil mass and allow some to come out the drainage hole. Be sure to pour off all drainage water, as it often contains dissolved minerals

and salts that would be harmful to the plant.

Do NOT use home-softened water for watering plants. The softening process replaces the hard minerals in the water with minerals that are harmful to plants.

FERTILIZER. The best rule to follow in fertilizing green plants is to use caution. Well-cared-for plants should be re-potted yearly with a good potting soil mix. The plants will then probably need only two or three feedings a year. Too frequent fertilizing can produce soft, undesirable growth and may even injure or kill the plant.

Use a complete soluble fertilizer with an analysis like 10-8-6, and mix strictly according to directions on the package. Fertilizer will not correct poor growth caused by insufficient light, poor soil drainage, or other unsatisfactory environmental conditions.

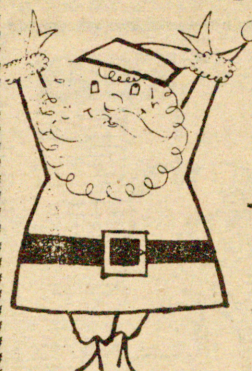

LIGHT. Green plants vary in their ability to withstand low light intensities, and most of them will not tolerate direct sunlight. As a general rule, give them bright light, such as from an east, west, or south window. But never move them into direct sunlight even for short periods, as it is likely to burn the foliage.

PESTS. As a rule, green plants in the home tend to remain pest free. Diseased plants should usually be discarded.

HOMER NEWS

BY ELIZABETH ANDERSON

Among the many Homer people who entertained, or were entertained at Thanksgiving dinner, were the following: Mrs. Robert Burch went to Plainfield for a Myers family dinner in the Clarence A. Rowley home; the George Burchams entertained the Amos Conrad family, Mrs. Laura Gunn and Frank Johnson, all of Chicago, and Mrs. William Mergler of here; Mr. and Mrs. Merritt J. Cagwin and Mr. and Mrs. Don Waldvogel were guests in the Clarence Splithome in Lemont; Mr. and Mrs. Julian Williams were house guests of the Earl Burnworths and accompanied them to the Larry Burnworths of Plainfield for dinner; Mr. and Mrs. J.J. Paddock and Jerry, Mrs. E.J. Paddock and Mr. and Mrs. George M. Milton were guests of Mrs. George Milton Jr. and George III, in Plainfield.

The Owen Otts had as guests, besides their son Billy, who was home from Champaign for the weekend, the Frank Hartmans of Blue Island, Mrs. Caroline Ott of Lockport, and the Alfred Boyds of here; Mrs. Dora White and son, Clyde, ate dinner with the Harold Voltraths of Lemont; the Ray Carlsons had as guests Mr. and Mrs. Joe Vancil and daughters and Mrs. Kate Vancil of Downers Grove, and Mr. and Mrs. Frank Milne of Lockport and Doug Carlson who came from Monmouth for the Thanksgiving vacation; Betty Anderson was home from DeKalb for the weekend; the Bruce Andersons entertained at a Welter family gathering which included Mrs. George Welter, the Alvin Welter family and Mr. and Mrs. Ronald Ziesemer and Bobby, all of Homer, Mr. and Mrs. Owen Storm of New Lenox twp., Mr. and Mrs. George Ballew, Douglas Ziesemer and Kathie Bergsath, all of Lockport.

The Elwyn Reeds gathered 29 of their immediate family and relatives from Chicago and Indiana around their dinner table on the big feast day; Rev. and Mrs. Cox had as their guests Mr. and Mrs. Joseph Kent, who gave interesting talks and music on Wednesday evening at Homer Church; Mrs. Ira Anderson and Robert Burch ate turkey with the Haynes Burch family, near Tony, Wis.; Mr. and Mrs. Neil Garabrant entertained at a family dinner which included as guests the Frank Morris and John Garabrant families and Mrs. Reed Burch.

New arrivals at Silver Cross hospital recently were a boy born to Mr. and Mrs. Ronald Elder of Oak St., Nov. 26 and another boy, son of the Everett Schnoes of 143rd and Smith, born Nov. 25; also a girl to the Richard Winkes on Nov. 26. Billy Burcham, aged 12, shot his first pheasant on Thanksgiving Day. Need we say he is very proud?

Indian Summer weather and the delightful atmosphere of the Charm Acres Tea Room on Bruce Rd. added to the pleasure of the group of women who gathered for their monthly Missionary Society meeting as the guests of Mrs. L.E. Storm and Miss Myra Reed on Thursday.

Mrs. Robert Burch gave a Thanksgiving devotional and Mrs. George Burcham presided at the business session. Plans were made for the Christmas meeting which will be held at the church Dec. 27.

Mrs. Hollister reported that 15 sewing bags were filled by the Sunday School, church members and Missionary Society, to be sent overseas as a United Church Woman's project. In place of a gift exchange, an offering will be taken at the Christmas party for some church project, not yet decided.

Mrs. Burcham named Mrs. Robert Shepherd and Mrs. Ira Anderson as a nominating committee who are to report a slate of officers at the December meeting when the society's annual election will be held. Nominations may also be made from the floor that day.

Mr. and Mrs. J.J. Paddock are attending an implement dealers' convention at Peoria on Dec. 5 and 6.

Mr. and Mrs. John W. Reiter will leave this week for a visit with their son Jack, and family in Florida. Sherman Reiter will keep the home fires burning during their absence.

Edward Winke of 159th St. reported to county police that 150 gallons of gasoline had recently been stolen from barrels at his farm.

At a recent meeting at LTHS,

My Neighbors

"Okay, McGraw, go in..."

several Homer boys received athletic awards. Varsity football awards went to Gordon Astrom and Mike LeGrand; sophomore football letter went to Gary Bond, and frosh-soph cross country awards were earned by Barry Brubaker, John Rowley and Gregg Carlson.

Victims of the flu during the past two weeks were Mrs. Reed Burch, Mrs. Robert Shepherd, the Bruce Anderson family and Miss Myra Reed, also George Welter who missed Thanksgiving turkey because of the illness.

The Good Luck Camp of Royal Neighbors are changing the time, date and day of meeting for this month. The meeting will be in the home of Mrs. Barney Welter, Wednesday, Dec. 12, at noon. It will be a potluck dinner, a one dollar gift exchange and each member is asked to bring a prize for the games that are to be played.

Stuart Reiter, Bruce Rd. is attending a training school for Nationwide Insurance representatives at Columbus, Ohio.

Mr. and Mrs. Robert Oudt of Rte. 6, New Lenox twp., became members of Homer Church last Sunday.
